Welcome to Fiona Christie's unique range of services aimed directly at those working within the NGO and social service/disability sector.

Clients find our service different and refreshing, they see far greater results and satisfaction at all levels during and following the supervision coaching process we offer.

Awaken your full potential today with our Professional Supervision Coaching Services.

### Whether you are:

- **Manager of staff**
- **Delivering services to clients/consumers**
- **Team leader**
- **Hands on front line staff member**
- **Board member/Volunteer of an agency**
- **Someone who directly deals with clients in any social service agency.**
- **Seeking Peer Supervision**

- Unlock your potential using our unique model of accountability and results based indicators used to track and measure your outcomes by aligning with your JD and agency outcomes.
- Allowing you to see measurable results and to become accountable for the services that you provide.
- We only work with you if you are open and willing to be proactive and challenge accountability within some traditionally passive coaching/ supervision paradigms
- We use a fundamental process of "real listening" to underpin all our services. It is not until you stop, listen and truly hear what you and your clients/staff are saying, that you will be able to change to achieve meaningful results.
- This process is unique and very effective. It is able to deliver a change in your perspective that will ensure you "see" your work and your relationship to this work in a whole new light.

*I worked in the disability sector for over 20 years and have always insisted on supervision as part of any employment contract.*

*It was only when I started working with Fiona that I became aware, through her unique and insightful way of working, that there was another way of viewing and hearing/listening.*

*I am amazed at her ability to make me see the way, my way, to make me take responsibility for my actions understanding I do know the answers.*

*It's her questions that shine the light on seemingly complex issues allowing me to find my way through. She understands the sector as she understands each of us who seek her supervision skills. I have no hesitation in recommending her to others within the disability, human services field, she is great.*
